25X1

25X1 3. [REDACTED] Dropped off to Carol Manuel, in the office of Senator Ribicoff, an Agency pamphlet to close out her call of the other day.

25X1 4. [REDACTED] Handcarried to Representative Glenard P. Lipscomb unclassified material prepared by OER on truck and passenger car production in the USSR. Mr. Lipscomb reviewed this material in my presence and said it was exactly what he wanted. He said he is working on some material on this and this would fit in very nicely.

25X1 5. [REDACTED] At his request, the scheduled meeting with Representative Edward Derwinski for tomorrow morning has been postponed until a date to be set sometime next week.
